Don't forget the meeting tonight at the Chamber of Commerce Hall for the purpose of organizing a Gar- ner-for-President Club.
Delegates will probably be se- lected for the rally in San Antonio Monday. We are in receipt of a letter from Hon. H. P. Hornby, Chairman of the Uvalde Club, in which he writes:
We sincerely trust that a num- ber of your citizens and residents of your County will join the Garner parade to San Antonio on the morn- ing of Monday, February 22. We expect to leave here with over one hundred cars at 9:00 o'clock, and should be in Hondo by 10:30. We shall have banners suitable for tying on automobiles in case you have not provided any of these.
The Fox News reel people expect to fly out and meet us on the road and take motion pictures of the caravan as it comes in to San An- tonio. The big Garner meeting and parade takes place from 1:00 o'clock on in San Antonio. Won't you please do what you can to see that Hondo and Medina County is well represent- ed?

WASHINGTON THE NATION-BUILDER BICENTENNIAL POEM

Written especially for the
CELEBRATION OF THE TWO HUNDRETH ANNIVERSARY
OF THE BIRTH OF GEORGE WASHINGTON

By
EDWIN MARKHAM
Author of "The Man With the Hoe"

A Spartan mother called him into Time,
And kindled duty in him as a flame;
While he was schooled by the primeval hills
Of old Virginia—schooled by her mighty woods,
Where Indians war-whooped and the wild beast
prowled.
His name was written on no college scroll;
But he drank wisdom from the wilderness.
The mountains poured into his soul their strength,
The rocks their fortitude, the stars their calm.

He grew a silent man;
Yet carried on all roads
The lofty courtesies, the high reserves.
He seemed to know, even in this noise of time,
The solemn quiet of Eternity.
But fiery energy, a live crater, slept
Under that mountain calm; yet never blazed
Into a passion, save in some black hour
When craven souls betrayed the people. Then
He was all sword and flame, a god in arms.

With the heart of a child, the wisdom of a sage,
He toiled with no self to serve.
He grew in greatness, year by luminous year
Until he carried empire in his brain.
Yet if no Cause, no hi h commanding Cause
Had called him to the hazard of the deed,
None would have guessed his power
To build a nation out of chaos, give
To her the wings of soaring destinies.
But at the Hour, the People knew their Man,
The one ordained of Heaven, ordained to stand
In the deadly breach and hold the gate for God.

And when the Scroll was signed and the glad Bell
Of Independence echoed round the world,
He led his tattered host on stubborn fields,
Barefoot and hungry, thru the ice and mire—
Thru dolers, valors, desperations, dreams—
Thru Valley Forge on to world-startling hours
When proud Cornwallis yielded up his sword.
And all the way, down to the road's last bend,
Cool Judgment whispered to his listening mind.
Where there was faltering, he was there as faith;
Where there was weakness, he was there as strength;
Where there was discord, he was there as peace.

His trust was in the Ruler of Events—
In Him who watches. He could say, "The ends
Are in God's hands. I trust.
But while I trust I battle." In this creed,
His soul took refuge and his heart found rest,
When, after Yorktown, all the guns were hushed,
Still was our Chieftain on a battle line,
Fighting old laws, old manners, old beliefs.
He fought the outworn old,
And lit new torches for the march ahead.

Life tried his soul by all the tests of time—
By hardship, treachery, ingratitude;
Yes, even by victory and the loud applause.
When fortune flung to him a crown, he flung
The bauble back and followed the People's dream.
He turned from all the tempters,
Stood firm above the perils of success—
Stood like Monadnock high above the clouds.

He did the day's work that was given him;
He toiled for men until he flamed with God.
Now in his greatness, ever superbly lone,
He moves in his serene eternity,
Like far Polars wheeling on the North.

ANNOUNCES FOR GOVERNOR.

MRS. MIRIAM A. FERGUSON.

TO THE VOTERS OF TEXAS:

Responding to the written request of more than 400 friends in 200

counties in Texas that I again enter the service of the state and pledging their active support, I hereby an- nounce as a candidate for governor. These friends assure me that there is an urgent demand for my candidacy not only from all former supporters, but from thousands who have hereto- fore opposed me. They further say that there is a wide-spread dissat- isfaction with the present adminis- tration of state affairs and that the public is demanding relief from govern- mental inefficiency and extravagance.
While I am not anxious to, nor will I enter into any scramble for of- fice, yet I do not feel that any citizen is at liberty to decline public service in time of public need. My family having been in the past signally hon- ored I recognize a special obligation to heed the call of Texas if I am needed or wanted in the public ser- vice.

I sincerely hope that the contest in which we are about to engage will be conducted on the basis of merit rather than personal antagonism. "Who can best serve Texas" should be the uppermost thought in the minds of the voter when the time comes to cast the ballot in our demo- cratic primary.

In addition to my connection with and my experience in the governor's

office, I shall avail myself of the ad- vice and cooperation of competent friends, of the legislature and my husband in determining a policy that will relieve the present perilous con- dition of our state affairs.

In submitting my name as a candi- date I deem it proper to take the people into my confidence and tell them that I am not financially able to make any extensive or expensive campaign and will have to leave my- self in the hands of my friends in the various counties of the state. I will go into office again, as in the past, under no promise or obligation to any special interest or faction for past, present or future favors.

In answer to those who may think that a woman should not hold high station, permit me to call attention to my administration of only one term in comparison with the last four administrations of men.

I repeat that: "Who Can Best Serve" should be the standard of the patriotic and the intelligent voter. At a later date I shall publish my platform for the information of the people, but I will say now that the chief plank will be the material re- duction of taxes.

In the meantime I will appreciate the activity of all good citizens in my behalf.

MIRIAM A. FERGUSON.

BAPTIST NEWS NOTES.

We are endeavoring to exalt the Christ, as the power of God and the wisdom of God, for the prayerful consideration of all men. He is the one and only Saviour, worthy of our love and fullest confidence. When human strength fails and personal feebleness lays its weakening hand upon us; then we are inclined to think of Him, and look to Him for His mercy and forgiving grace. It is then that we see the folly of all worldliness and the wickedness of all sin. The wisest of all God's crea- tures—man—proves by his sinful headiness, to have been the biggest fool. We would urge every person to stop and think of their indebted- ness to God, of their dependence up- on Him and of their obligations to civilization. Time is passing; your strength is going with the passing days. Soon you will face the rapidly setting sun. "Today, if you will hear His voice, harden not your heart." Our Bible school opens at 10 o'clock Sunday morning. You are invited to join with us in the study of the precious Book. Christ, the Good Shepherd, is the subject for our in- vestigation. It is found in the 10th Chapter of John's Gospel. At the eleven o'clock hour, the Pastor will speak on the subject: George Wash- ington, the Ideal American. You are invited to worship with us and study the secret of the strength of the first president of our country. On Friday evening, 7:45 o'clock, a Temperance Drama will be presented in the Baptist church. The entire community is invited to attend. You will be repaid for your attendance. At 7:30 o'clock on Sunday night, the regular preaching service. Why, for what and for whom should men pray, will be the topic. You might find some help by coming and worship- ping with us. A hearty welcome to all. Should any of your family fall sick, kindly inform the Pastor of the Baptist church. He would like to call with his Christian sympathy and assistance.

EXCESS acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. Harmless, and tasteless, and yet its action is quick. You will never rely on crude methods, once you learn how quickly this method acts. Be sure to get the genuine.

The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior toothpaste that safeguards against acid-mouth.

METHODIST CHURCH ANNOUNCEMENTS.

Every member of the Church and all those who worship with us are urged to be present Sunday morning to hear Dr. P. F. Brumbeloe, who is preaching for the pastor while he is entertaining a case of the mumps.

There is a value derived from Church attendance that can not be had from any other source; it stimulates right thinking, and right conduct has its beginning in right thinking, just as wrong conduct is born of wrong thinking. Church attendance keeps our conscience alert and active and gives us contact with the great stabilizing power in the world.

Remember Church school at 9:45; a place for everyone.

"It is expedient for us that man should die for the people, that the whole nation perish."

This prophetic saying from lips of avaricious Caiaphas was product of a selfish sinful nature. And yet it contains the Truth that has proved a blessing for all nations. The High Priest that year was of opinion that for his own interest the Person known as Jesus Christ should be put out of the way. Criminal purpose was carried out. Yet thereby the prophecy of God that in Abraham all the nations the earth would be blessed, came to fulfillment. The Son of God for the people, all people!

In these times America is back 200 years to the memory of this nation's Father, and we George Washington was and stood. If this nation of ours is not to perish but to live on, it must go back to the principles established by our fathers, for which they gave and died. "That the whole nation may not" we must rejuvenate the religious principles of faith and life. It is necessary that the One who died for our nation, Jesus Christ, Righteous, shall die anew for each individual citizen, if we as a people under God are to maintain our religious and moral integrity. Find that personal relation to the Savior of our Nation.

The third service in Lent will be held next Wednesday night, February 24, at 7:30. The subject is biographical sketch of Peter, who died Christ. All are welcome to worship with us.

Next Sunday the service will be in the English language at 10:30. Sunday school and Bible Class at 9:15. There will be no night service. You are invited to a patriotic-religious program at Bethlehem Lutheran Church, Quibi, on Sunday night 7:30. tf.

Mesdames C. J. Schuele and Harry Crouch were called to Corpus Christi Tuesday night on account of the serious illness of Otis Schuele, who was in a hospital in that city. They had not returned up to Thursday noon, but a message from them to homefolks brought the cheering news that his condition was improving.

Miss Mae Heckman, daughter of Mr. and Mrs. John Heckman, was able to be moved Friday from the Medina Hospital to the home of R. E. Bohmfalk, following an appendix operation. Mr. Heckmann wishes to thank the Doctors and nurses for the splendid care given his daughter while a patient there.

Word has been received here by Mr. and Mrs. P. Jungman that their son, J. Frank Jungman, who has been ill in a Houston hospital for several months, has sufficiently regained his health to be moved to his home in Houston, where it is hoped his recovery will be complete.

The directors of the District Meet of the Interscholastic League will meet at the Hondo High School, Saturday at noon, to set the date and place of the district meet. The meet will probably be held in Uvalde as heretofore.

R. J. Koch, young son of Mr. and Mrs. Robert Koch, was taken to the Medina Hospital last Thursday seriously ill with pneumonia, but at the writing he is doing fine and on the road to recovery.

The baseball schedule for the district will be made Saturday when all the high school coaches get their heads together. Hondo and Del Rio are favorites to win the title this year.

Friends of Mrs. William Schmitt who formerly resided here, will regret to learn of her serious illness in a San Antonio hospital. Mrs. Schmitt now makes her home in San Antonio.

Football coaches of the district will meet at the Hondo High School at two o'clock Saturday to make the football schedules for 1932, announces Supt. J. G. Barry of Hondo.

Mrs. John J. McGraw this week orders the paper sent to her at Mingo Junction, Ohio. Mrs. McGraw will be remembered as formerly Miss C. Nehr of D'Hanis, Texas.

COMMITTEE.

HORNETS WIN SERIES.

After winning their third game from Sabinal, Monday night, the Hondo Hornets established themselves as victors, and at the same time came back with their old vitality to win after two games lost. In the series, the scores stood 36-10, 33-26 and the last, 39-25, in favor of the local sextet.

The first quarter of Monday's tilt was slow and heavy-going for the Hornets, the visitors making three goals before the locals fell into their usual fast, brilliant playing. The second and third quarters just escaped being run-aways for the Hondo bunch with a score of 35 to 15. In the fourth and last quarter the Hornets ran in substitutes, girls who had never played in a game, for the experience of a good work-out. The game ended, with the amateurs in, 39 to 25. The one division court was used.

Sabinal line-up: Forwards, M. Butler, Davenport and R. Butler; Guards, Myrick, Henderson and D. Butler. Henderson and Butler alternated at jumping forward positions. Atkron went in for Myrick at guard position.

Hondo line-up: Forwards, Haass, Cameron and Davis; guards, Brucks, Shoor and Meyer. Schweers substituted for Shoor and Wurzbach for Schweers at guard position. Uhl went in for Davis as jumping forward.

Officials were: Miss Perry Chamberlain, referee; Irwin Gooding, scorer; Jack Bradley, Timer.

DR. AND MRS. MEYER HOSTS.

Dr. and Mrs. H. J. Meyer were hosts to the group of Thursday Bridge Club members, Monday night, with a delightful George Washington party. Table appointments featured the patriotic motif.

Mrs. Earl Starnes and Dr. W. H. Smith each won high score and were presented appropriate prizes.

Following the bridge, refreshing hot coffee and sandwiches were served to the following: Dr. and Mrs. W. H. Smith, Dr. and Mrs. O. B. Taylor, Dr. and Mrs. T. B. Knopp, Mr. and Mrs. Earl Starnes, Mr. and Mrs. Horace Bradley, Mr. and Mrs. E. E. Heath, Mr. and Mrs. J. M. Finger, Dr. John Henry Meyer and Dr. and Mrs. H. J. Meyer.

We would also express our appreciation toward the good ladies who helped so willingly to provide meals for the laboring men.

Sincerely,

The program was opened with a song by everyone. Mr. McDowell led in a word of prayer, then Gladys Fusselman and Margaret Dillon sang a duet, "Pals of the Little Red School."

Brother Merrill gave a short talk and then everyone went out on the lawn and played games. After about three hours of fun, iced tea and cake were served to the following: Misses Emma Buss, Margaret Dillon, Gladys Fusselman, Donia Merriman, Christina Taylor, and Ellen Tweedy; Messrs. HONDO, TEXAS, FEB. 19, 1932

TEXAS AND TEXANS.
By
Will H. Mayes
"All Texans for All Texas"

Let's Celebrate.
1932 is the George Washington
Bi-Centennial year. No great cen-
tral exposition is to be held, but,
beginning with February 22, his-
torical and patriotic celebrations
are to be held with a view to creat-
ing greater reverence for Washing-
ton and other historic characters,
better understanding of American
history, and increased patriotism
and loyalty to country.

In Texas there will be a general
observance of February 22 as Arbor
Day, with special emphasis in the
tree planting observance upon those
honoring America's "first" citizen.
Every school, even in remotest ham-
lets, is expected to plant a tree up-
on the school grounds—preferably
a pecan, the Texas State tree. In
every park at least one such tree
should be planted. Every civic club
should plant a tree; every organiza-
tion of whatever kind. Addresses,
songs, pageants, school exercises,
religious sermons and programs
should center around Washington
and patriotism. We need to know
our country better, to love it more,
to be better citizens.

Make It Permanent
Why not start a movement, at
the February tree planting exer-
cises, not only to care for the
tree, but to erect a slab or monu-
ment showing when, by whom and
for what purpose the tree was
planted? This should be of Texas
stone or granite. Each year there-
after a simple, patriotic ceremony
could be held at the place by those
who participated in the planting of
the tree and the erection of the
memorial. Some may be able to put
up only cheap stones; others could
erect expensive granite statues.
Small annual contributions would
soon provide the funds. Texas has
reached a stage in its progress
when its people should become
more sentimentally and patriotically
interested in the people and events
that formed the foundations for its
progress. The Washington Bi-Cen-
tennial anniversary is a good start-
ing point.

Honoring A Texan
About 400 Texans attended a
banquet in San Antonio recently to
honor Mrs. Clara Driscoll Sevier,
and to show their interest in a
suitable setting and surrounding
for the Alamo. Mrs. Sevier, whose
interest in this historic shrine
saved it from despoliation in years
past, recently contributed \$65,000 to
the State's appropriation of \$150,-
000 to buy property adjoining the
Alamo building, which is to be con-
verted into a park, thus making
possible the purchase. Daughters of
the Republic of Texas thought this
generous gift should be suitably
acknowledged, and the 400 met to
show their appreciation of the
generosity and patriotism of Mrs.
Sevier. It was a nice honor con-
ferred upon one whose heart is
centered upon doing things that
redound to the glory of Texas and
the interests of Texas people.

Repatriating Mexicans
Mexico, and perhaps Texas as
well, is profiting by lack of employ-
ment for Mexicans in this country,
and especially in South Texas. That
country is taking thousands of un-
employed Mexicans, that are stranded
in this country, back to Mexico
and assisting them in getting re-
established in their own country.
This is removing a large charity
burden from Texans and at the
same time is helping to repopulate
Mexico, which needs population more
than Texas does, and can afford
not to be too particular about the
financial resources of its repa-
triates.

Slicing Budget
Inflated expenses can not be
sustained with deflated dollars. Efforts
are being made—and success-
fully—to reduce government ex-
penses—State, county and city—to
conform to present conditions,
rather than to increase tax burdens
unreasonably. Houston has reduced
its city budget nearly a million dol-
lars. Taylor and other small cities
are finding they can get along with
less money. Many counties are cut-
ting out unnecessary expenses.
Salaries are being trimmed where
the trimming does not reduce effi-
ciency. Officers charged with fixing
public expenses are calling on busi-
ness men as advisers, and this usu-
ally results in reduced cost of gov-
ernment.

Maine Boosters
A delegation of boosters from
Maine—twenty or more—recently
made a trip through Texas in a
special car to which was attached
an exhibition car containing, mostly,
Maine Irish potatoes, for which that
State is famous. The rest of the
exhibit was canned goods of the
kind almost any Texan housewife
who has acquired the canning habit
can excel. The potatoes showed
Maine commerce; the canned goods
Maine thrift. The Maine visitors

made a good impression and must
have received a still better impres-
sion of Texas. They were hospitably
treated everywhere, they were
shown the hundreds of par excellent
products of Texas winter weather in
such marked contrast with that of
Maine. If the net results are not a
decided gain for Texas, then this
writer hasn't a very good opinion of
the sound judgement of people of
Maine.

Boosting Garner Boost Texas
Every distinction won by or for
a Texan, provided it is a deserved
distinction, is a boost for the State.
The boosting of John Garner of
Texas into the Speakership of the
House has given the State a won-
derful amount of valuable publicity,
for it calls attention to the fact that
Texans can accomplish things worth-
while. The same is true of the selec-
tion of Jesse Jones to membership
on the newly formed Reconstruction
Board. Garner may or may not be
the Democratic nominee for Presi-
dent, but Texans should do their
best to bring it about, if for no other
reason than he is a Texan with
ability to make a worthy President
of the United States. Whatever
Democrat may be elected President,
Jesse Jones is likely to be one of
his closest advisers—perhaps a
member of his cabinet—because of
the prominent position he now
holds in the rehabilitation of eco-
nomic conditions.

Texas Museums
An announcement that the Soph-
ienberg Memorial Association, of
New Braunfels, plans the establish-
ment of a local museum to house
and display relics of historical in-
terest in the county, calls attention
again to the need for a State mu-
seum. Many of the most treasured
relics within the State are being
lost to museums of other States and
countries and can never be replaced.
There are yet many small collec-
tions in local museums and in
homes, but these are housed most-
ly in insecure buildings and are
likely to be destroyed by fire at
any time. Collectors have found
Texas a rich field for exploration
and exploitation.

Big Building Program
It is estimated that the total
building program in Texas for 1932
that is already practically assured
is in excess of \$100,000,000. In all
probability this figure will be in-
creased by 50 to 100 per cent before
the close of the year. Included in
this is the big road building pro-
gram of the State and many coun-
ties. That sounds like prosperity in
the building trades.

Texas Conditions Good.
On a recent trip through Texas
President Atterbury of the Penn-
sylvania railroad system, stated that
he found agricultural and business
conditions in Texas better than
anywhere else in the country and
prospects for the future bright in-
deed. A large part of the general
optimism he found prevailing he
attributed to the spirit of coopera-
tion existing everywhere in the
State.

No Business Failures
Reports from all over the State
show that in a number of Texas
counties there was not a business
failure in 1931—a record unusual
when general business conditions
are considered. Conservatism in
business, backed by undaunted
energy, brings business success even
in spite of unusually stringent
times.

Hoarding Discouraged.
It was estimated by advisers of
President Hoover, called to discuss
economic conditions of the country,
that about \$1,700,000,000 have been
taken out of circulation in recent
months and hoarded in vaults and
hiding places, where it is as value-
less to the country as if it were gold
melted into bullion and buried
where it could not be found. Money
hidden is worthless to the owner
or any one else so long as it stays
hidden.

50 YEARS AGO.

The comparative statement below
was set in by an old timer who has
been through the experiences of both
ways of living. Other old-timers will
enjoy it and say "Isn't it the truth":

1881—Fifty years ago women wore
hoop skirts, bustles, petticoats, cor-
sets, cotton stockings, high buttoned
shoes, ruffled cotton drawers, flannel
nightgowns, puffs in their hair; did
their own cooking, baking, cleaning,
washing, ironing; raised big families;
went to church on Sunday; were too
busy to be sick.

Men wore whiskers, square hats,
ascot ties, red flannel underwear, big
watches and chains; chopped wood
for stoves; bathed once a week; drank
10 cent whiskey and 5 cent beer; rode
bicycles, buggies or sleighs; went in
for politics; worked 12 hours a day,
and lived to a ripe old age.

Stores burned coal oil lamps, car-
ried everything from a needle to a
plow, trusted everybody, never took
an inventory, placed orders for goods
a year in advance, always made
money.

1931—Today women wear silk
stockings, short skirts, low shoes, no
corsets, an ounce of underwear; have
bobbed hair, smoke, paint and pow-
der, drink cocktails, play bridge,
drive cars, have pet dogs and go in
for politics.

Men have high blood pressure,
wear no hats, and some no hair, shave
their whiskers, shoot golf, bathe twice
a day, drink poison, play the stock
market, ride in airplanes; never go to
bed the same day they get up; are
misunderstood at home; work five
hours a day, play ten die young.

Stores have electric lights, cash
registers, elevators; never have what
the customer wants; trust nobody;
take up inventory daily; never buy in
advance; have overhead markups,
markdown, quota, budget, advertis-
ing, stock control; annual and semi-
annual, end of month, dollar day
founder's day, rummage, economy
day sales; never make any money.

**MAKE MONEY OUT OF YOUR
SPARE TIME.**

Young men or young women not
employed should begin at once to
qualify for a good secretarial or ac-
counting position. There has been
less than twenty-five per cent of the
usual number of students getting
training in the business schools of
the country the past year. This
means as business picks up there is
going to be a shortage of well-trained
office help.

Many of those let out during the
past twelve months will have to take
minor positions for lack of proper
training. Many of them did not have
a high school education and but little,
if any, specialized business training.
Competition is going to be close, mar-
gins of profit small, therefore the
successful business man will have to
employ those who whipped themselves
with the most modern and up-to-the-
minute business training. The time
has passed when a smattering of
bookkeeping, shorthand and type-
writing will enable you to secure and
hold the better positions. Write for
our catalogue and consider our Com-
plete Secretarial or Complete Busi-
ness Administration.

The best way to prevent colic,
doctors say, is to avoid gas in stomach
and bowels by keeping the entire
intestinal tract open, free from waste.
But remember this: a tiny baby's
tender little organs cannot stand
harsh treatment. They must be
gently urged. This is just the time
Castoria can help most. Castoria,
you know, is made specially for babies

preparation, perfectly harmless. It
contains no harsh drugs, no narcotics.
For years it has helped mothers
through trying times with colicky

INFLATION VS. DEFLATION.

When the depression set in over two years ago the wise men told us that we were going through a re-adjustment, that business would soon adjust itself, and everything would be O. K. The general opinion was that we always had had depressions and always would have depressions, and there was nothing we could do about it but let it run its course.

Now this is the exact attitude once held by the Mexican people in regard to smallpox. When smallpox would break out in Mexico, they would say, "We have always had smallpox and we always will have smallpox. It is God's will; it will have to run its course." That attitude was responsible for thousands of deaths every year, and that is the reason there are so many pock-marked Mexicans today. No doubt our children or at least our grandchildren, will consider our treatment of this depression just as foolish as the Mexicans' treatment of smallpox.

Depression is an economic disease, and to attempt to cure it by letting it run its course has been extremely expensive to the whole nation. The Federal government is losing a billion dollars a year from its ravages, and Mr. Mellon is seeking new ways of taxing the people to make up the deficit. This Depression has wrecked several thousand banks, and is weakening every business in the country.

We have tried to persuade ourselves that business was coming out; all we had to do was work harder and get it. But things gradually grew worse. We said this is only a flurry; it will soon be over. We coined some slogans, such as "prosperity is just around the corner."

Some of our big Captains of industry dug up one of Napoleon's old slogans, when he said, "There shall be no Alps". Our big boys said there shall be no depression. But when Napoleon said there shall be no Alps he did not stop with words. He employed thousands of men in building a magnificent road across those lofty mountains. Those roads today still excite the wonder and admiration of the tourists, after one hundred and twenty-five years of use.

If President Hoover had called the Napoleons of finance together two years ago, and said we are going to stop this depression before it gets bad. We will set aside two billion dollars to stabilize business. This money will restore confidence and we will give every man a job that will work; but nothing was done two years ago and nothing was done last year. But at last Mr. Hoover realizes that this thing is not going to get better unassisted. Through his influence congress has turned over two billion of dollars to the bankers, and now if they will appropriate the same amount to begin public works in order to employ labor, we can then say we are coming out. It takes money in circulation to cure a depression.

Yours truly,
E. J. MURRAY.

GOOD CROPS ALWAYS BEST.

Fletcher's Farming, published out at Hondo, finds as follows:

Nineteen hundred and thirty-two can be worse than 1931. Although 1931's crops brought little money there is an abundance of feed on most farms. Better depression prices than famine crops.

Atta boy, that is the correct view. There is an old saying, "You can't starve with the crib full of corn and a smokehouse full of pork." All the matter with the country at present is the low prices of farm products, and that matter has always regulated itself, heretofore, and may again. Sit steady in the boat.

CLOSER SPACING OF TOMATOES MORE PROFITABLE IN 1931.

Spacing Marglobe tomatoes 4 feet by 3 feet was more profitable than any other spacing at the Winter Garden Experiment Station in 1931. Not only were the yields per acre greater but the yields per plant were higher than in the other spacings. The nine spacings tried varied from 3 by 3 feet to 6 by 6 feet. The closer spacings set fruit earlier in the fall planting.

SELF-RELIANCE.

From The Owl.

God never meant man to be like the ivy vine, to cling to other people for support. The difficulties, hardships and trials one encounters during life are blessings. They strengthen the mind as well as the body. All difficulties come to us like the lion that met Samson; the first time we encounter them they roar and gnash their teeth, but, once subdued, we find them very gentle. We find that peril is the very element in which power is developed.

The greatest curse that can befall a young person is to lean, while his character is forming, on other people for support. He who begins with crutches generally ends with crutches. The toughest plants are not reared in a sheltered garden or a hot house, but on the rugged mountains where the storms beat most violently. The oak that stands alone only takes deeper root and stands firmer; while the forest tree, when the surrounding trees have been removed sways and perchance is uprooted. So is it with man; those who are trained to self-reliance are ready to battle the world alone, while those who have depended on others for support are never prepared to breast the storms of life.

Many great men, whose memories are now renowned, had no one to lean on for support. While they were children, they learned to rely on themselves; so when they were grown they needed no one to help them.

If a child be not trained to endure and to bear trouble, he will grow up to be very weak in mind and body. A child rightly brought up will be like a willow branch, which broken off and touching the ground, at once takes root. Children will root easily in their own soil, will not forever be grafted into the old trunk and boughs of their forefathers.

CO-OPERATION.

From The Owl.

Co-operation, as defined by Webster, means to concur to produce the same effect. That's what is generally caused if all co-operate with one another anyhow.

Well, to get down to business, what I was thinking about was the wonderful co-operation we have in the Senior Class. Boy! Isn't it sweet to see all those dignified Seniors get together and settle a question on the spot?

They get together all right, but what happens then? Just this, half of the class (maybe less) are in favor of having some sort of entertainment. The other half are not opposed to it but still won't vote in favor of it. The queer part of it is that when they are asked what they do want, none of them have any suggestions to make. What's the trouble with you if you belong to that half of the class?

Did you ever stop to think that you are not only showing to the class in general that you have not the slightest spark of school spirit but that you are also holding the rest back from having a good time? Think it over.

That can apply to other classes as well as the Senior class but they have it bad. It will not harm you to vote like most of your class do. Should you hold back just because you are not in the mood for doing something that the live members of the class want to do?

It will help the morale of your class a great deal if you will just co-operate with the other members of your class in making it a room full of live students and not dead drawbacks.

Estelle Goes A-Baking

OUT in Hollywood they tell you that Estelle Taylor can cook and bake as well as she can act, which for the movie fan has only one meaning. Estelle must be a good cook. Her special weakness is pie—large fresh fruit pie containing plenty of vitamins and sugar with its energy giving qualities. After coming back for a second helping, movie folk have generally agreed with Estelle that nothing can take the place of something sweet to make the meal complete. Here's one of Miss Taylor's tempting recipes for an apple pie which is different:

Hollywood Apple Pie

Make two crisp pie shells and fill one with cold, well sweetened and seasoned apple sauce. Then place the other shell on top and serve in sections with a spoonful of whipped cream for decoration. A little nutmeg sprinkled on top will add to the flavor.
